TROPIC AMUSEMENT

Vaudeville seems to be peculiarly the amusement for a tropical or semi-tropical climate. One does not care, especially in these muggy days to work one's brain endeavoring to unravel the windings of a complicated comedy or excite one's self in following the vicissitudes of a heavy drama. One wishes solely to be amused.

The best is of course to be the most desired. So when a combination like Nawn and his company calls in at Honolulu there is a general demand for seats from all the amusement loving individuals whose untoward fate it is to be starved for entertainment during the greater part of the year.

The Nawns and their fellow artists are all par excellence, first class in their various lines and the combination has been chosen with a particular view to produce variety of bill. Music is a strong feature but the program includes all the popular numbers that make up a vaudeville bill far stronger than could be seen at the San Francisco Orpheum for instance. The company plays a short engagement of two weeks changing the bill from time to time, the first performance taking place at the Orpheum tomorrow evening. The box office is open all day from ten until five for seat reservations.

Reduced estimates of the Board of Agriculture and Forestry bring the pay roll down to \$16,880 and current expenses to \$14,516, making a total of \$31,396. Replying to President Thurston's statement, the Governor writes: "Your final recommendations, practically meet the requirements and I beg to thank you most sincerely for the attention you have given this matter."

TO HOLD INTEREST FOR ANOTHER MILLION

When Treasurer Kepolka first submitted estimates to Governor Carter in regard to the running of his department within a limit suggested by the latter along retrenchment lines being laid down for presentation to the Legislature in its task of solving financial problems, he omitted an important item.

Said the Treasurer this morning: "I must add about fifty thousand dollars to my interest account estimate, that the Legislature may prepare an appropriation to meet the interest and expenses of our possible new loan of a million dollars."

"If we should borrow the rest of the money authorized by the last Legislature, we must have ready the means to pay interest on our new million, to gether with enough to defray the expense of printing the bonds, and so forth. The exact amount to be added to my first estimate, in this connection, will be, I think, \$51,500."

"Yes; there may be reductions in the running expenses of this department beyond cuts mentioned in my first statement to the Governor. I suppose there will have to be; but there is no cutting the interest account, as can readily be seen, on the contrary, we must increase it against the possibility of borrowing that other million."
